The Legislature.

Our Madison correspondence yesterday closed up with a very discouraging paragraph to the effect that the legislature were getting more business upon their hands than would permit them to adjourn within any respectable time. "Nearly one hundred bills on file yet unconsidered!" What on earth can all this be for? Are we again as usual to be sufficed, stifled, buried up with new laws, and amendments to old ones? The people had fondly hoped this was to be an exceptional legislature; that the session could not or would not be prolonged beyond the first of March. But behold the first of March is at hand, and the day of adjournment has slid away into the dim distance of the first of April. Do the members really believe that "All Fools' Day" is the only appropriate time for them to close up the work of legislation? We do not desire to be offensive in our remarks, but it really seems as if the wishes of the people at large were entirely ignored in this matter, and that nothing that could be said or done, or asked by them could command the least consideration from their representatives at Madison. It is all right when they wish for votes; they are going to be model members, and will consult and carry out as far as practicable the wishes of their dear constituents; but it is quite another thing after they have secured their certificate of election. Then their self respect and independence as legislators will not permit them to listen to dictation or direction or out side influence in any way, and they dole out the session agreeably to their own ease and convenience.

But "its no use talking" or writing. This evil can be corrected only in one way, and that is by making it an issue in the election throughout the State, and by supporting no man, whatever his qualifications may be, who will not distinctly pledge himself to go to Madison and begin the first day to transact the legitimate and proper business of the session, and so continue right along from day to day, turning neither to the right nor the left for local or partisan legislation, making no adjournments from Friday to Tuesday, "just to enable the committees to prepare their reports," in short, to

Let each day's declining sun Record some worthy action done towards finishing up business and going home. Let such pledges be exacted and their observance insisted upon, and our Legislature will be metamorphosed from a nuisance to a healthy and benign institution.

From the 12th Battery.

HENRYVILLE, Feb. 14, 1864. EDITORS GAZETTE:—My letters may prove uninteresting if we do not make a move soon, for there is nothing of an exciting nature transpiring here. Huntsville is fast awakening from the lethargy into which it had fallen from the effects of war. Stores and offices are being reopened, citizens are thronging the streets, while life and business are resuming their wonted way. Trade is regulated by the Post Commander, and prices of produce and merchandise fixed at a certain limit. Property of citizens is protected by the military arm, and every attempt at destruction or pillage on the part of soldiers is promptly punished. Under these regulations quiet and good order prevail. In the Battery all are well, and notwithstanding the many disagreeable duties, manage to keep in good spirits. The subaltern influence is in excellent working order, and 'tis hoped that in a short time all unruly ones will be brought under perfect control. Certainly such should be the final result of the laborious efforts of the past two months. The fact that we possess a guard house is indelibly fixed on the minds of the unfortunate many who, through fair means or foul, have been compelled to take lodgings therein. Our guard house is not remarkable for its beauty, still we pride ourselves on being the owners of such an institution, and if the structure is a little shaky the carpenters are not to be blamed for they did their work in a hurry, just before a rain storm. 'Tis not yet completed as a dungeon is to be added, which will doubtless inspire awe and terror in the minds of unhappy culprits who must live in total darkness with bread and water rations. While thus held in durance vile no man will be allowed the consolation of a sympathizing word from friends, for all conversation is strictly prohibited. This plan is fixed upon in order to enforce discipline without resorting to acts of cruelty, and all will readily admit that 'tis prompted by motives of humanity most commendable. Some may say that the above is "sarkism," but people are liable to misconstrue the meaning of what they read.

The recruits and our box are anxiously looked for but do not make their appearance. We know that they are on the way and the best we can do is to wait with patience.

Since I last wrote we have been deprived by death of our comrade Ambrose C. Ames, who was taken suddenly away after a short but severe illness. His disease was bilious plury. Yours, &c., W. S. B., 12th Wis. Battery.

As a apology is due our readers for the irregularity and want of fullness of our telegraphic reports. We have arrangements in progress to remedy these defects, and hope soon to be able to satisfy the most exacting of our readers in this respect.

LOCAL MATTERS.

The Senate has passed the bill conferring the title of Lieutenant General upon General Grant.

PEPE CARPENTER calls voting the democratic ticket and having in one's house the Chicago Times, "sacred privileges!" We "can't see" the sacred.

Why is a minister like a locomotive? Because you have to look out for him when the bell rings.

—Prof. Agassiz says that a grasshopper's organs of hearing are his legs. Of course, when in doubt as to threatening danger, he is enabled to jump to a conclusion and a safe position at the same time.

—A citizen of Hannibal, Missouri, whose slaves lately ran away, has since received from them a Bible, and the request that he "should read it regularly."

—Curran's ruling passion was a joke. In his last illness, his physician observed in the morning that he seemed to cough with more difficulty. He answered, "That is rather surprising, as I have been practicing all night."

—A gentleman was agreeably surprised the other day to find a plump turkey served up for dinner, and inquired how it was obtained. "Why, sir," was replied, "that turkey has been roasting on our fence for three nights, so this morning I seized him for rent."

It was Dow, Jr.,—sacred be his memory—who said that "Life is a country dance; down outside and back; tread on the corns of your neighbor, poke your nose everywhere, all hands round; right and left. Hob your cocoon nut, the figure is ended. Time hangs up the fiddle, and death puts out the lights."

Elizabeth Dryden complained to Dryden, her husband, that he was always reading, and took little notice of her; and finished by saying she wished she was a book, and then she would enjoy his company. "I wish you was a book, my dear," says Dryden, "but an almanac, I mean, for then I should change you every year."

—The Seventh Wisconsin regiment arrived at the Soldiers' Rest yesterday morning, and after partaking of an ample dinner, spread by the ladies, departed to join the Army of the Potomac. Two years ago, last September, this regiment passed through Chicago, 1040 strong, three weeks ago they passed here, en route to Wisconsin, 230 strong. The present number of efficient men is 330, including 100 new recruits.—Chicago Tribune.

HOTEL RULES AT THE "DIGGINS."—The proprietor of a Revere River hotel (according to Hoyle, who has just returned) has posted up the following rules and regulations: "Board must be paid in advance; with beans, \$15; without beans, \$12; salt free; no extras allowed; potatoes for dinner; pocketing at meals strictly forbidden; gentlemen are expected to wash out of doors and find their own water; no charges for tea; towel bags at the end of the house; extra charges for seats around the stove; lodgers must furnish their own straw; beds on bar-room reserved for regular customers. Persons sleeping in the bar requested not to take off their boots; lodgers inside noise at 5 A. M.; in the barn at 6 o'clock; each man sweeps up his own bed; no quarrel taken at the bar; no fighting allowed at the table; any one violating the above rules will be shot."—Amundson Dispatch.

—There was a bazaar in Rochester, N. Y., recently, held by the ladies of that city, one of whom wrote to Gen. Grant for a lock of his hair, to be set and sold in the fair. The General, of course, acceded to the request, and expressed his satisfaction, in view of the demand, that his stock of hair is so abundant as it is, though admitting that "flips or some other cause is beginning to interpose, here and there, a reminder that winters have passed." He replied that he could not find it in his heart to refuse such a request, even though, in granting it, he exposed the fact to the ladies of Rochester that he is "no longer a boy." We hope the ladies won't follow the lead of his Rochester correspondence and cut all the hair off the hero's head.

LOCAL MATTERS.

We publish to-day an interesting account sent us by our Washington correspondent, of the escape of our prisoners from Libby prison, probably more full and correct than any our readers have before seen. It will of course meet with a general perusal.

ATTACK BY GUERRILLAS.—The plantation of Mr. John Lockwood, of Milwaukee, situated opposite Natchez, was invaded by guerrillas during the early part of the present month. The marauders carried off seven or eight ten dollar mules, and did some other slight damage. A little judicious use of shot and shell scattered the robbers.

ASSAULT ON A DETECTIVE OFFICER.—A detective officer from Madison, named Howell, who came to this city for the purpose of arresting deserters, was assaulted on the streets two or three evenings since, and so severely injured as to confine him over since to the hotel where he was stopping. We did not learn whether the parties who made the assault are known to the authorities, nor whether there was any provocation to it. Such rowdiness ought to be punished.

THE MONEY RECEIVED.—Our readers will recollect that three Union Soldiers—two of them from Wisconsin—in the army of the Cumberland, were murdered a number of weeks ago, by guerrillas, and that Gen. Thomas issued an order assessing the rebels in the neighborhood where the deed was committed, \$30,000, of which \$10,000 was to be paid to the families of each of the murdered men. A gentleman arrived in the State a day or two since, with \$20,000, to be bestowed in accordance with the order. One of the men lived at Delavan and the other at Racine. We understand that some of the parties assessed paid in green backs and some were compelled to turn out their cotton.

FINISHED.—The second telegraph wire between this city and Chicago is now up and will be put in operation in a few days. This additional wire will facilitate business between the two cities, and was very much needed.

In this connection it may not be out of place to state that a second wire will be put up between this city and Milwaukee, during the coming spring. The materials are purchased and have arrived at Milwaukee. We congratulate the commercial public upon these improvements, and hope it will much facilitate the business of getting news reports for our telegraphic columns.

RAILROAD ACCIDENT.—The day passenger train from the north which usually leaves here for Chicago at 3:55 P. M., met with a serious accident near Oakfield Station. The track spread through three coaches into the ditch, smashing up the trucks and cars badly. The engine and baggage car passed over in safety. The track was clear at 10 o'clock last evening and the night express went south about midnight. Wonderful to say no person was injured.

Immediately upon receiving information of the accident, Supt. Dunlap ordered an extra train to leave Janesville for Chicago on the time of the regular day train, to convey the passengers from the west and our city.

MATTERS IN CLINTON.—Editors Gazette:—The question of quotas and credits is one which interests nearly everybody, at present.

We learn from the Adjutant General's office at Madison, that the town of Clinton has furnished, under the call for 500,000 men, 26 men, and 13 veteran recruits, making a total of 39. Our quota under the call for 300,000 was 24. Assuming this as the basis for the additional 200,000, we were required to furnish 16 more men, so that at present only one man is required to answer a. We are of the opinion to date, we are 40 or 50 more that if he only wants to do so, to say the word, and the men come; for it is our determination to "see the thing out" by going in for three years more. I have heard many of the way say that they desired to do nothing else until this job was off their hands, and this spirit which is so prevalent is bound to win.

We have just received notice from Washington that Mr. Sloan has done what we have in vain tried to do for the past three years, that is, to rid us of the intolerable nuisance to which we have been obliged to submit, in honoring a prominent railroad man by giving his name to our post-office. The name of the town is Clinton, it was named thus at the time of the original survey, and our post-office was originally Clinton. The people of Clinton were so satisfied to have it remain thus, but in 1857 to satisfy the whim of a mail route agent on the Northwestern Railway, and against the earnest protest of nearly every man in town, it was changed to Ogden, and an office established in Sheboygan county by the name of Clinton. Our business men, merchants, grain and lumber dealers were known as residents of Clinton, but important business letters were often two weeks, in getting three hours out of Chicago via Sheboygan county, but it is all right now. After March 1st we shall be known as the Clinton Post-Office in Wisconsin, henceforth and forever—"so mote it be."

Respectfully, Clinton, February 24th, 1864.

Proposed Increase of Soldiers' Pay!

The Dead from the Bohemian!

FROM WASHINGTON.

WASHINGTON, Feb. 25.—The Special—Gov. Johnson and a delegation of seven men had a long interview with the President to-day, relative to the restoration of Tennessee to the Union. It is understood that, while they did not favor the President's plan, their interview was mutually agreeable, and the deputation expressed the opinion that Tennessee would soon be formally re-constructed, with a civil government.

The Senate Com. on military affairs to-day took up the nomination for Major and Brigadier Generals. They reported only two of the former, Generals Warren and Humphries, and some eighteen of the latter. A thorough examination into the qualification of both classes of officers is being made by the committee, and quite a number have been hung up. The Com. will go through the whole list. Schofield's nomination was again postponed. The House military committee had under consideration to-day the question of increasing the pay of soldiers. They came to no definite conclusion as to the amount of pay which they should receive. It ranges from \$15 to \$25 per month, and the committee will probably compromise on \$20.

Tribune's special.—The committee on the Pacific Railroad held a meeting to-night for the purpose of consulting with prominent men from the west, interested in the early construction of the road.

FROM PORTLAND.

PORTLAND, Feb. 24th.—Five bodies have been recovered thus far; 17 persons are yet missing; 26 passengers are known to be lost, and five of the crew. Four more mail bags were found this morning. One was for Detroit and one for Chicago. It is reported that 17 have been found, which accounts for all lost.

FROM NORTH CAROLINA.

New York, Feb. 24.—The Newbern Times says the late rebel raid has strengthened the Union feeling there. We cannot for a moment doubt that should a strong Federal force move on Raleigh and unfurl the old starred banner from the Capitol, it would be hailed with shouts of intense joy by tens of thousands.

FROM CINCINNATI.

CINCINNATI, Feb. 24.—It is the Court of Common Pleas to-day the jury brought in a verdict of guilty in the case of Willard P. Snow for rape. The counsel for the prisoner immediately filed a motion for another trial. The case created great excitement here, and the verdict surprises the majority of the people.

A cartoon in the Times announcing the death of Parson Brownlow is contradicted by parties direct from Knoxville.

THE WAR IN VIRGINIA.

New York, Feb. 24th.—The World's special dispatch from Washington, says: The city is full of rumors of a movement by the Army of the Potomac. It is rumored that the tents are to be struck on Monday morning, and a serious effort made to dislodge Lee from his position on the south bank of the Rapidan. There is reason to believe, also, that Grant is in motion from Chattanooga.

The New York Tribune's Washington special says: General Sigel is appointed to an important command by the President. It is understood to be to supersede General Kelly.

The Herald's Army of the Potomac dispatch of the 23d, reports the arrival of one more escaped prisoner from Richmond. It says the rebel pickets are doubled to cover a weakening of their forces, or to lessen the chances of deserters to escape.

FROM GRANT'S DEPARTMENT.

Cairo, Feb. 24th, 1864.—Officers from the steamer Fanny, from Vicksburg 20th inst., report that Sherman's forces are in possession of Selma, Alabama.

CHATTANOOGA, Feb. 24.—General Potter skirmished with the enemy all day yesterday, and succeeded in driving them to Tunnel Hill, Ga. The 8th Illinois and the 88th Indiana were actively engaged in skirmishing all day. Our loss was 1 killed.—F. J. Jackson, Orderly Sergeant, company K, 19th Illinois. Wounded—F. J. Andrews, company G, and Peter B. Lowe, 88th Indiana.

On pushing on to Tunnel Hill, they opened heavily with four field pieces. It is supposed they are going to dispute the further passage of our troops if an attempt is made to "push on."

THE CHESAPEAKE CASE.

St. Johns, N. B., Feb. 14.—The Police Magistrate delivered judgment to-day in the Chesapeake case, ordering the prisoners to be committed to jail for surrender to the United States authorities. He said this capture was the work of cowards and villains. The only authority given for the seizure is that given by John Parker and he had no power to give commissions to others. There was no authority given in the letter of marque to Parker to transfer his power to another. It was piracy, robbery and murder and is a case within the extradition treaty. Application will be made for a writ of habeas corpus, so as to bring the case before the Supreme Court.

last day's doings on record—our worthy action towards finishing up business and going home. Let such pledges be exacted and their observance insisted upon, and our Legislature will be metamorphosed from a positive nuisance to a healthy and benign institution.

From the 12th Battery.

HUNTSMILL, Feb. 14, 1864.
 EDITORS GAZETTE.—My letters may prove uninteresting if we do not make a move soon, for there is nothing of an exciting nature transpiring here. Huntsville is fast awakening from the lethargy into which it had fallen from the effects of war. Stores and offices are being reopened, citizens are thronging the streets, while life and business are resuming their wonted sway. Trade is regulated by the Post Commander, and prices of produce and merchandise fixed at a certain limit. Property of citizens is protected by the military, and every attempt at destruction or pillage on the part of soldiers is promptly punished. Under these regulations quiet and good order prevail.

In the Battery all are well, notwithstanding the many disagreeable elements, manage to keep in good spirits. The subduing influence is in excellent working order, and it is hoped that in a short time all unruly ones will be brought under perfect control. Certainly such should be the final result of the laborious efforts of the past two months. The fact that we possess a guard house is indelibly fixed on the minds of the unfortunate many who, through fair means or foul, have been compelled to take lodgings therein. Our guard house is not remarkable for its beauty, still we pride ourselves on being the owners of such an institution, and if the structure is a little shaky the carpenters are not to be blamed for they did their work in a hurry, just before a rain storm. 'Tis not yet completed as a dungeon is to be added, which will doubtless inspire awe and terror in the minds of unhappy culprits who must live in total darkness with bread and water rations. While thus held in duress no man will be allowed the consolation of a sympathizing word from friends, for all conversation is strictly prohibited. This plan is fixed upon in order to enforce discipline without resorting to acts of cruelty, and all will readily admit that 'tis prompted by motives of humanity most commendable. Some may say that the above is "sarkasm," but people are liable to misconstrue the meaning of what they read.

The recruits and our box are anxiously looked for but do not make their appearance. We know that they are on the way and the best we can do is to wait with patience.

Since I last wrote we have been deprived by death of our comrade Ambrose C. Ames, who was taken suddenly away after a short but severe illness. His disease was bilious plury.

Yours, &c.,
 W. S. B., 12th Wis. Battery.

An Apocryph is due our readers for the irregularity and want of fullness of our telegraphic reports. We have arrangements in progress to remedy these defects, and hope soon to be able to satisfy the most exacting of our readers in this respect.

THE SENATE HAS PASSED THE BILL CONFERRING THE TITLE OF Lieutenant General upon General Grant.

PEOP CARPENTER calls voting the democratic ticket and having in one's house the Chicago Times, "sacred privileges." We "can't see" the sacred.

Why is a minister like a locomotive? Because you have to look out for him when the bell rings.

Prof. Agassiz says that a grasshopper's organs of hearing are his legs. Of course, when in doubt as to threatening danger, he is enabled to jump to a conclusion and a safe position at the same time.

A citizen of Hannibal, Missouri, whose slaves lately ran away, has since received from them a Bible, and the request that he "should read it regularly."

Curran's ruling passion was a joke. In his last illness, his physician observed in the morning that he seemed to cough with more difficulty. He answered, "That is rather surprising, as I have been practicing all night."

A gentleman was agreeably surprised the other day to find a plump turkey served up for dinner, and inquired how it was obtained. "Why, sir," was replied, "that turkey has been roasting on our fence for three nights, so this morning I seized him for roasting."

It was Dow, Jr.,—sacred be his memory—who said that "Life is a country dance; down outside and back; tread on the corners of your neighbor, poke your nose everywhere, all hands round; right and left. Bob your cocoa nut, the figure is ended. Time hangs up the fiddle, and death puts out the lights."

Elizabeth Dryden complained to Dryden, her husband, that he was always reading, and took little notice of her; and finished by saying she wished she was a book, and then she would enjoy his company. "I wish you was a book, my dear," says Dryden; "but an almanac, I mean, for then I should change you every year."

The Seventh Wisconsin regiment arrived at the Soldiers' Rest yesterday morning, and after partaking of an ample dinner, spread by the ladies, departed to join the Army of the Potomac. Two years ago, last September, this regiment passed through Chicago, 1040 strong, three weeks ago they passed here, en route to Wisconsin, 250 strong. The present number of efficient men is 330, including 100 new recruits.—Chicago Tribune.

HOTEL RECENT AT THE "DECOINS."—The proprietor of a Recent River hotel (according to Hoyle, who has just returned) has posted up the following rules and regulations: "Board must be paid in advance; with beans, \$15; without beans, \$12; salt free; no extras allowed; guests for dinner; pocketing at meals strictly forbidden; gentlemen are expected to wash out of doors and find their own water; no changes for life; towel bags at the end of the house; extra charges for seats around the stove; lodgers must furnish their own straw; beds on bar-room floor reserved for regular customers. Persons sleeping in the barn requested not to take off their boots; lodgers inside arise at 6 A. M.; in the barn at 6 o'clock; each man sweeps up his own bed; no quarrel taken at the bar; no fighting allowed at the table; any one violating the above rules will be shot.—Anandor Dispatch.

There was a hazzay in Rochester, N. Y., recently, held by the ladies of that city, one of whom wrote to Gen. Grant for a lock of his hair, to be set and sold in the fair. The General, of course, acceded to the request, and expressed his satisfaction, in view of the demand, that his stock of hair is so abundant as it is, though admitting that "time or some other cause is beginning to interfere, here and there, a reminder that winters have passed." He replied that he could not find it in his heart to refuse such a request, even though, in granting it, he exposed the fact to the ladies of Rochester that he is "no longer a youth." We hope the ladies won't follow the lead of his Rochester correspondence, and get all the hair off the hero's head.

IRISH BULLS.—At the bottom of an order for a lot of goods lately received by a firm in Hawick from a Dublin house was the truly Irish note: "Send the whole at once and the remainder afterwards." A son of Erin cautions the public against harboring or trusting his wife Peggy on his account, as he is not married to her.

An Irish paper publishes the following item: "A dead man named Taff, was run down by a passenger train and killed on Wednesday morning. He was injured in a similar way about a year ago."

BADGER!

1862! 1863! 1864!

DRY GOODS!

GOOD! BETTER! BEST!

THE

BADGER DRILL!

HERETOFOR KNOWN AS

AS MADE BY

R. J. RICHARDSON,

is now vastly improved, and will hereafter be called

the BADGER. The Badger possesses the good qual-

ities of the old drill, and many valuable improvements.

The feeling principle of the new drill is the same as

the old, but the working arrangement is quite different,

and very much improved.

The workmanship is also much better than the old

drill. We will not claim that the Badger is better

made than other drills, but will say that it is made by

experienced workmen, under my own supervision, and

am willing that it should be compared with the best

drill made.

The frame made of summer season white oak,

from the forests of Indiana. The poles and rails are

drawn ash from Jefferson county. The hubs, and other

castings, are from the reliable Rock River Iron Works

of James Harris & Co. The various pieces of wrought

iron are from numerous rolling mills of Pittsburgh.

THE POINTS ARE CAST STEEL,

from the celebrated Sheffield works of Singer, Smith

& Co. The rollers are from the Ohio State, made

at Columbus, Ohio. The spokes are of dry white

oak, from Northern Wisconsin. The chains are from

Wm. Frederick, Germany. No pains have been spared

to obtain the best material; the workmanship will

show for itself.

To those who know the old drill it is only necessary

to say that the Badger is the best drill yet made.

To those who are not acquainted with the old drill, we

would say that the Badger is more accurate in its

feeding than any other drill introduced into the

country. It is lighter and easier for the team than

any drill yet introduced into this market.

That it will distribute any kind of grain grown in

this region. That it will

Plant Corn in Rows or in Hills!

Any distance apart, from three to six feet.

That the Badger is warranted to perform, in a good

and workmanlike manner, all that is required of any

drill. If on trial, it does not perform, it can be re-

turned to the manufacturer, and all damage will be

paid to the purchaser.

In consequence of the large advance in cost of all

kinds of material, the Badger must be sold at advanced

prices over last year.

Prices of the Badger for 1864:

9 Tooth Drill.....\$75 11 Tooth Drill.....\$85

10 Tooth Drill.....80 12 Tooth Drill.....90

Five dollars extra for Gravel Drill. Four more

drills will be made for the same price.

Price of 17th tooth Drill and Seeder, \$120.

NEW PATENT DAMPER!!

Patented June 2, 1892.

Procure a Damper and Save Fuel!

VERSECK & WALKER

Have obtained a Patent for a Damper or Heat Regulator, by which in an ordinary draft stove at least one-third of the heat is saved, and the draft is made so perfect, and the heat is retained in the stove.

By the use of these Dampers, a stove will last one-quarter longer, for the reason that the heat is drawn equally from the top and bottom of the stove, and the smoke, which would otherwise escape, is now drawn back into the stove and heats it up. This saves some parts of the stove and heats it up. This will save and save in a short time, and this can be saved by the use of one of these Dampers.

You can now keep your stove hot, and have plenty of coal to burn in the morning, and this will save you, in one winter, is worth twice the price of a Damper.

Don't Fail to Procure one of Verbeck & Walker's Dampers.

After using one a few days, you would not be without it for the time being. The price is nothing compared with the fuel it will save in one winter.

TRY ONE AND SEE!

Our Dampers are warranted never to get out of repair, and will last a lifetime.

The undersigned will put in a few of them on three days' trial, on condition that if the Damper does not do what is claimed for it, it will be returned, and a refund of the price of \$1.00. If it stands a trial the price is \$2.00.

I have bought the territory for Rock county, Wis., and Boone and Stephenson counties, Illinois, and will accommodate all who are willing to try a Damper, poor as well as rich.

Liberal terms are offered to competent and efficient agents in every locality. Apply to E. A. BENSON, publisher, or at this office. This Damper can be found for sale at the hardware store of J. J. RICHARDSON, Janesville, Wis. [Janesville]
